

Available vacancy: Visualfiles Developer

Term: Full – Time

We are:

We are a leading regional law firm, serving a wide range of commercial and private clients across London and the surrounding counties, from our Head Office in Bromley. Established since 1889, we've come a long way and today we are a modern, progressive practice, proud of our record on diversity and inclusion and reputation for training and promoting staff from within the business.

We are looking for a Visualfiles Developer to join Judge & Priestley's Software Development team. You will be responsible for developing and enhancing Judge & Priestley's Case Management System, Visualfiles, and integrated solutions.

You will participate in all phases of the software development cycle to design, build and support solutions in line with the company's objectives.

Working closely with the users to ensure that their needs are being met as well as the needs of our Clients as we continuously develop the firm's processes.

Main responsibilities

- Liaise with the relevant people within the firm to obtain full project specifications or problem details to be able to go on and develop solutions.
- Research and develop IT solutions that integrate or work with Visualfiles.
- Proactively suggest improvements to software/working practices.
- Deliver professional, business focused and high quality solutions to an agreed scope.
- Undertake Visualfiles development; working on projects as part of a team or on your own.
- Test all software developments, upgrades and bug-fixes as required or directed.
- Ensure user and technical documentation is maintained and is accurate.
- Work with VRT (SQL) to produce reports and data where required.
- Share responsibility with the development team to resolve issues and problems on the helpdesk.

Skills and qualifications

Essential

- Experience (around 2+ years) of Visualfiles development and knowledge of legal workflows.
- Organised and accurate with good attention to detail.
- Methodical, problem solving mindset and a forward-thinking approach.
- Strong communication skills both written and verbal.
- Good research and troubleshooting skills.
- Flexible and proactive.
- Works effectively as a team and alone without close supervision.
- Good time management skills.

Desirable

- Relevant IT studies in further or higher education
- Knowledge of other languages/technologies (i.e. HTML, JavaScript, CSS, XML)
- Experience with SQL Server/SSRS/SSIS
- Experience of coding using the .Net Framework

We offer an attractive salary and package. You will receive 22 days annual leave plus bank holidays. Other benefits include, contribution to legal fees, death in service benefit, birthday off, Christmas bonus, profit share bonus, access to 'cycle to work' scheme, Bupa Health Cash Plan to name a few.

If your application is unsuccessful we may keep your personal data on file for up to 12 months. We recommend that you read our Job Applicant Privacy Policy which you can find on our website.

Judge & Priestley is committed to equality of opportunity and welcomes applications from all sections of the community.

We will offer an automatic interview to candidates who meet the minimum requirements for the role and have a disability under the Equality Act 2010. Please call our HR department on 0208 290 0333 if you believe that this applies to you.

Please note that upon acceptance of an offer of employment all successful applicants are required to undergo a Basic Disclosure for unspent convictions.

Please email CV to jprecruitment@judge-priestley.co.uk to apply or for further information.
